VOLUME 89

1987

The New England Botanical Club, Inc.
Harvard University Herbaria, 22 Divinity Ave., Cambridge, Mass. 02138

the 1990s, the number of people in the world who are under 15 years of age has increased from 1.1 billion to 1.5 billion, and the number of people aged 65 and over has increased from 0.2 billion to 0.5 billion (United Nations 1999).

There is a growing awareness of the need to address the needs of the young and the old. The United Nations (1999) has identified the need to address the needs of the young and the old as one of the eight Millennium Development Goals. The United Nations (1999) has also identified the need to address the needs of the young and the old as one of the eight Millennium Development Goals. The United Nations (1999) has also identified the need to address the needs of the young and the old as one of the eight Millennium Development Goals.

The United Nations (1999) has identified the need to address the needs of the young and the old as one of the eight Millennium Development Goals. INDEX TO VOLUME 89

New scientific names are in **bold face**.

- Additions to the flora of Connecticut. 217-219
- Additions to the flora of Washington County, Maine. 221-225
- Allium vineale* L. (Liliaceae) for Vermont. The first record of, 93-94
- Ankyra judayi* and *A. lanceolata* (Chlorococcales). Observations on Lake Erie populations of, 21-26
- Announcements:
- International Conference on Lowland Heaths 245, 345
- Jesse M. Greenman Award Notice 110
- Joint Field Meeting 112, 244
- NEBC Award Notice 1987, 109; 1988, 449
- New England Botany Graduate Students Meeting 111, 450
- Wherry, Edgar T. Memorabilia, 450
- Arkansas. On the occurrence of *Platanthera leucophaea* in Louisiana and, 347-349
- Arnica* (Compositae: Senecioneae). Cytotaxonomic studies in the genus, 391-400
- Aster glomeratus*. *Aster* section *Biotia* (Asteraceae) in New England and the status of, 299-318
- Aster* section *Biotia* (Asteraceae) in New England and the status of *Aster glomeratus*, 299-318
- Asters of southern Ontario. Cytogeographic studies on North American asters. III., 41-45
- Ball, Peter W. *see* Crins, William J.
- Beloglottis laxispica* Catling, *sp. nov.* 13, fig. 14
- Book Reviews:
- Ecology of Coastal Vegetation 107
- Field Guide to Coastal Wetland Plants of Northeastern United States. A, 445-446
- Guide to the Vascular Plants of the Florida Panhandle 443-444
- Manual de Herbario 241-243
- Bowers, Frank D. *see* Semple, John C.
- Bryson, Charles T., Robert Kral and James R. Manhart. A new species of *Carex* (Cyperaceae: section *Oligocarpae*) from the southeastern United States. 357-363
- Calamagrostis pickeringii* in Maine. 333-336
- Calopogon tuberosus* var. *latifolius* with comments on the application of varietal rank. The status of, 401-413
- Cape Breton Island. Compositional-structural relations in old-growth forests in, 279-297
- Carex* (Cyperaceae: section *Oligocarpae*) from the southeastern United States. A new species of, 357-363
- Carex hostiana* (Cyperaceae). Variation in, 247-259
- Carex impressinervia* Bryson, Kral and Manhart, *sp. nov.* 357; figs. 359, 361
- Carex praegracilis* (Cyperaceae) in eastern North America: a remarkable case of rapid invasion, 205-216
- Carya cordiformis* in New England. Range extension for, 441
- Catling, P. M. A new species of *Beloglottis* (Orchidaceae) from Oaxaca. 13-15
- Catling, P. M. *see* Reznicek, A. A.
- Catling, Paul M. and Zoe Lucas. The status of *Calopogon tuberosus* var. *latifolius* with comments on the application of varietal rank, 401-413
- Chmielewski, Jerry G. Cytogeographic studies on North American asters. III. Asters of southern Ontario, 41-45.
- Chromosome number determinations in Fam. Compositae, tribe *Astereae* II. Additional counts. 319-325

- Chromosome numbers from the flora of the Juan Fernandez Islands. II. 351-356
- Cirsium: *C. flodmanii* \times *C. undulatum*. Natural hybridization in the genus, 369-373
- Community classification of the vascular vegetation of a New Hampshire peatland, 415-440. Community types 421; Vascular flora 433
- Compositae, tribe Astereae. II. Additional counts. Chromosome number determinations in Fam., 319-325
- Compositional-structural relations in old-growth forests, Cape Breton Island. 279-297
- Connecticut. Additions to the flora of, 217-219
- Cormier, Charles R. Range extension for *Carya cordiformis* in New England. 441
- Crawford, Daniel J. *see* Spooner, David M.
- Crins, William J. and Peter W. Ball. Variation in *Carex hostiana* (Cyperaceae). 247-259
- Cytogeographic studies on North American asters. III. Asters of southern Ontario. 41-45
- Cytogeography of *Pityopsis* Nutt., the grass-leaved goldenasters (Compositae: Astereae). 381-389
- Cytotaxonomic studies in the genus *Arnica* (Compositae: Senecioneae). 391-400
- Cytotaxonomic studies of *Piptocarpha* subgenus *Hypericoides* (Compositae: Vernoniaceae). 35-40
- Dabydeen, Simon. Natural hybridization in the genus *Cirsium*: *C. flodmanii* \times *C. undulatum*. 369-373
- Dahlia congestifolia, section Entemophyllon (Asteraceae: Heliantheae, Coreopsidinae), new from Hidalgo, Mexico. 197-203
- Dahlia congestifolia Sorensen, *sp. nov.*, 198; fig. 200
- Delphinium (Ranunculaceae) in continental Mexico. Synopsis of, 47-74
- Dunlop, Debra A. Community classification of the vascular vegetation of a New Hampshire peatland. 415-440
- Eckel, P. M. Mosses new and rare for New York state. 375-379
- Ellmore, George S. and William E. Phair. Status of Elm preservation in New England. 27-33
- Elm preservation in New England. Status of, 27-33
- Evolution. Still another unpublished letter from Spruce on, 101-106
- Fairbrothers, David E. *see* Wallace, Robert S.
- First record of *Allium vineale* L. (Liliaceae) for Vermont. The, 93-94
- Freeman, John D. and Thomas E. Heineke. *Trillium recurvatum* Beck forma *esepalum f. nov.*, a new sepalless form of the prairie wakerobin. 17-20
- Freshwater diatoms (Bacillariophyceae) from the northern glacial lake district of Wisconsin. I. *Attheya*, *Cyclotella*, *Melosira*, *Rhizosolenia* and *Stephanodiscus* (Order Centrales). 261-278. Key to the genera 263; *Attheya* 273; *Cyclotella* 267; *Melosira* 264; *Rhizosolenia* 273; *Stephanodiscus* 271.
- Goldenasters. Cytogeography of *Pityopsis* Nutt., the grass-leaved, 381-389
- Greene, Craig. *Calamagrostis pickeringii* in Maine. 333-336
- Greenidge, K. N. H. Compositional-structural relations in old-growth forests, Cape Breton Island. 279-297
- Heineke, Thomas E. *see* Freeman, John D.
- Historical Notes:
 Early years of Charles Schweinfurth, *Orchidologist*, 95-99
 Maria L. Owen, nineteenth-century Nantucket botanist. 227-239
 Still another unpublished letter from Spruce on evolution. 101-106
- Hudson, W. Donald, Jr. The reproductive biology of *Saxifraga stellaris* var. *comosa* on Mt. Katahdin, Maine. 1-12.

In Memoriam:

- Bean, Ralph 447-448
Eaton, Richard Jefferson 337-343
Foster, Robert C. 108
